Our Mission

At Little Hearts Kindergarten, we aim to provide a high quality education with all the modern facilities at an affordable cost.

We base our teaching on the Montessori method, combined with the new curriculum developed by the MOE, which emphasizes on development by enabling children to independently perform tasks which interest them using specialised equipment. We have fully qualified teachers with years of experience!

We emphasise on good, loving care for children during their earliest and most important years of development.

We admit children of all races and religions!

Our daycare unit is specifically designed to suit working mothers - we look after your bundles of joy with all the love and care of a family whilst gently training them in motor skills needed for the years to come.

We have reliable school transport with experienced drivers.

Our Beautiful School

We have a host of facilities for your child:

Computer Studies

Library Lessons

E-Learning

Art and Craft

School Trips

Swimming

Cookery Classes

Tae Kwon Do

*Sports Days, Fun Days, Concerts,
Montessori Exhibitions, Cultural
Exhibitions and Much More!!!*

We admit only **fifteen children** per class; this ensures that the teacher pays close attention to every child due to a low teacher - pupil ratio. All learning materials and stationery are catered for.

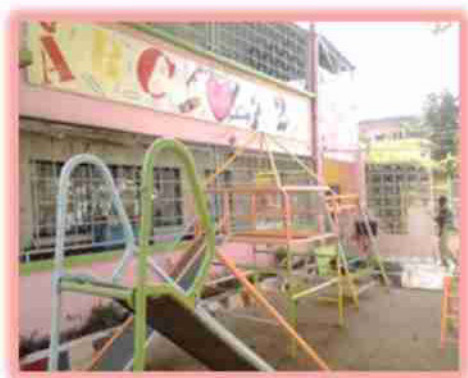

We provide healthy break-time snacks with milk, and also offer a full-day option for hot lunch. The menu is delicious and nutritious, and is served with dessert!

We do not have a school uniform, because we believe that our children should feel comfortable with the idea of coming to school. Indeed, our children regard Little Hearts Kindergarten as their second home.

Our office is open daily from 7.30am to 3.30pm from Mon - Fri

We look forward to meeting you and showing you around the school.
